PROFESSIONAL SUMMARY

Audio and visual professional with extensive experience providing high-end sound design, music scoring, film production, forensic and video services. Industry leader passionate about sharing exemplary professional experiences and accomplishments with clients/students in order to foster first-hand educational development. Driven professional adept at branding and creating commercial and promotional materials at the corporate level for Fortune 500 companies. Multi-media professional with the demonstrated ability to combine real world applications with academic experience. Forensic computer engineer, expert witness when audio and video (picture) evidence is presented needing an objective interpretation.

PROFESSIONAL EXPERIENCE & ACCOMPLISHMENTS

- 26 Years experience analyzing audio and video evidence using court accepted scientific fact based forensics.
- Responsible for covert electronics, recovering data from complex servers and mobile devices, designing and performing computer and server security installations.
- A liaison between fellow technicians, courts and attorneys serving as an expert witness.
- Directed own recording studio and performed all types of electronic maintenance.
- Provided expert services of recorded evidence for both plaintiff and defence used in all levels of court.
- Instated to teach recording technique classes at Oakland University and eventually Wayne State University as a result of completing a recording for an Oakland University Show Group.
- Trained and certified an expert in voice identification. The finer interpretation of spectrographic results.
- Created the curriculum and taught a three credit audio recording technique courses at Oakland University, converting professional experience into constructive course materials.
- Premiered and established a three credit audio recording technique courses at Wayne State University, teaching up to 22 students.
- Designed and built studio facilities for private and corporate clients involving acoustics, lighting, audio and video equipment, budgeting, purchasing, installation and operational instructions.
- Designed, built and manufactured electronic circuit improvements for audio video equipment.
- Recorded and produced jingles and show music for Fortune 500 companies such as Sears, Little Caesars Pizza, Tubby's Subs, Chrysler, GM, and Ford.
- Developed "Hollywood Explained" seminar demonstrating the trials and tribulations of recorded evidence with court room examples that was taught and is available to law officials with some groups giving attendies (CEU) educational credits.
